

Comprehensive Eye Check-Up

Regular eye exams are essential for maintaining healthy vision and detecting potential issues early. Our comprehensive eye check-up is designed to give you a complete picture of your eye health.

These examinations are particularly important for preventing eye diseases or positively influencing their progression.

Services	Check-up
Consultation	✓
Eyesight test	✓
Eye pressure measurement	✓
Comprehensive slit lamp eye exam	✓
Fundoscopy including pupil dilation	✓
Evaluation of glaucoma, cataract, and macular degeneration	✓
Optical Coherence Tomography for detailed assessment of the retina and optic nerve	✓
Evaluation of diabetic and hypertensive retinopathy	✓

Duration of the examinations and the entire stay: 60 minutes

Every eye is unique...

...which is why we attach great importance to the individual treatment of your eyes.

Whether you are experiencing vision changes or simply need a routine exam, our experienced team is here to provide you with expert care using state-of-the-art technology in a multilingual environment.

What sets us apart is our **collaborative, interdisciplinary approach**:

Our ophthalmologists work closely with other healthcare professionals to ensure that you receive the most accurate diagnosis and comprehensive care – especially for complex or chronic conditions.
